Skills

- **Programming Languages** : Java
- **Libraries and Frameworks** : Spring Boot, Hibernate, Spring
- **Tools** : Intellij IDEA, Eclipse
- **Other Skills** : DSA, Problem Solving Skills, System Design

Projects

Ecommerce Website

🔗 https://github.com/Sharayu003/Product-Service

- Architected a Microservices based ECommerce Platform with support of core functionalities of any ECommerce Website like Product Catalog, Payment Gateway Integration, Order Service, Notification Service etc.
- Implemented Event Driven Email Service to allow sending emails at large scale across different services within the Platform.
- Implemented powerful sorting, filtering using ElasticSearch to allow for efficient discovery of products.
- Optimized the response time of APIs from ~500 ms to ~50 ms by making effective usage of Caching for static data using Redis Cache.
- Tools and Frameworks Used: Spring Boot, Spring Cloud, MySQL, Redis, Razorpay Payment Gateway, JUnit, Kafka.

BookMyShow

🔗 https://github.com/Sharayu003/bookmyshow

- Developed BookMyShow, clone of famous booking website bookmyshow.com
- Implemented complete end-to-end flow of booking a show
- Developed features built following S.O.L.I.D. and design patterns
- Implement efficient transaction handling at Isolation Level that ensures no duplicate booking maintaining 1:M mapping between booking and seats

Education

Scaler   2024

Specialized in Software Development & Problem Solving

Coursework : Data Structure and Algorithm, Low Level Design, High Level Design

Pune University   2022

MCA │ 8.5 CGPA
